

WhizzKids United Adolescent Participant Model

Entry Point

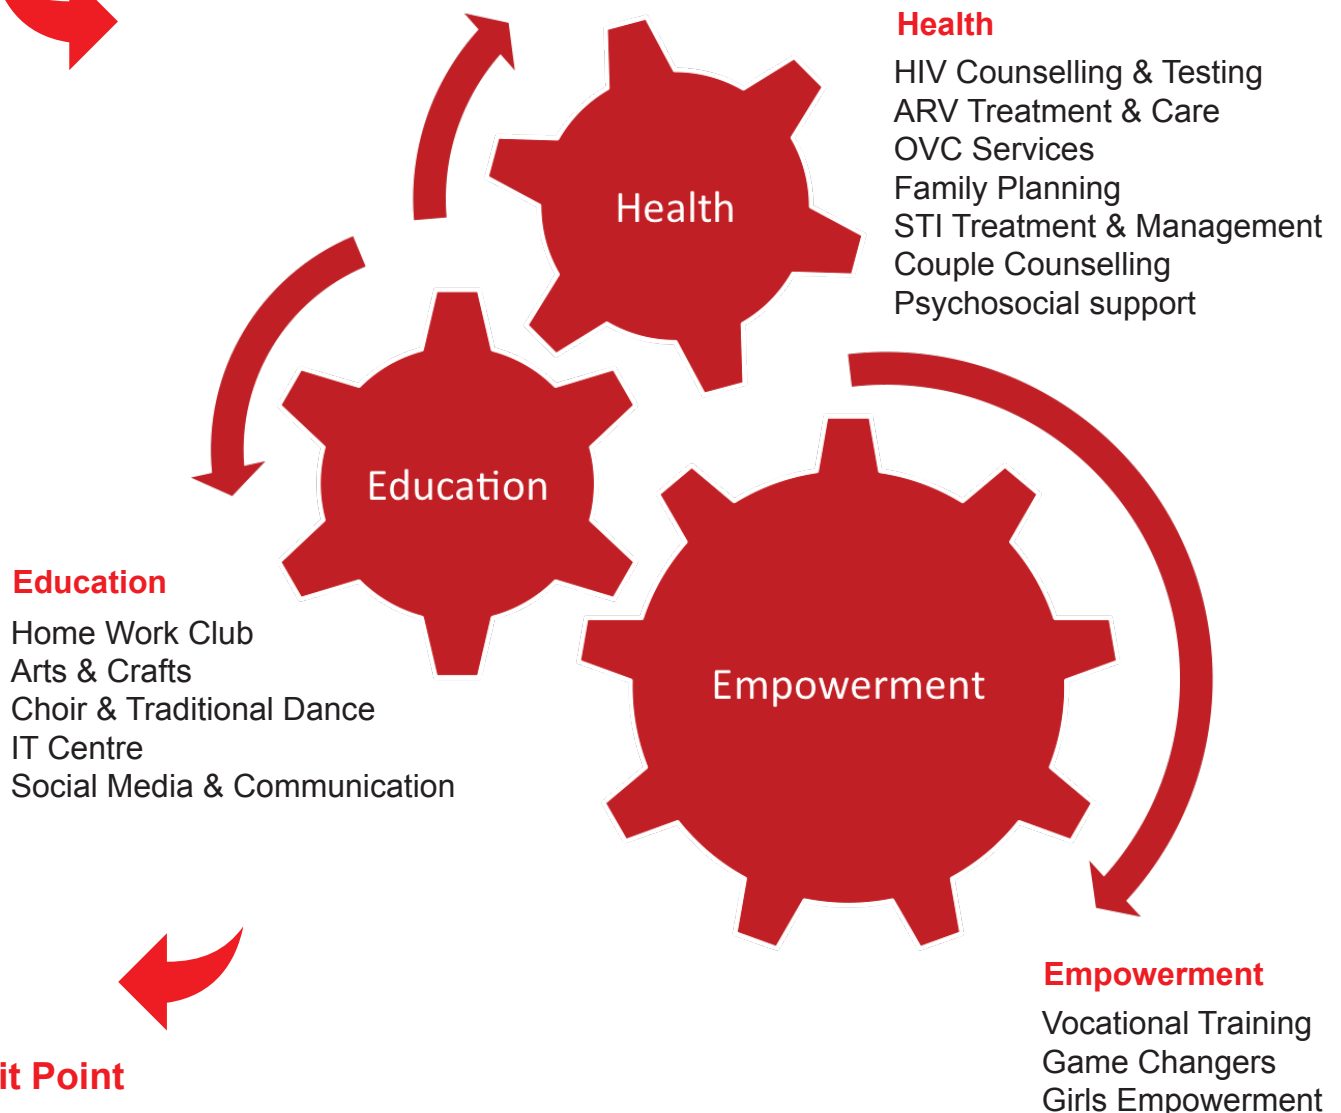

'On the Ball' life skills and other school/community based activities and/or events are used as an entry point to engage adolescents

Child Status Index (CSI)

Each adolescent is directed to the WKU Health Academy/Football For Hope Centre for CSI assessment which enables WKU to develop an individualised care plan (ICP). Each adolescent is then directed to the appropriate programme or services based on their individual needs and the ICP is evaluated on an on-going basis

Three pillars of services offering programmes based on the individualised care plan

Exit Point

Adult health services, employment, education or further training
